REASONS FOR ALLOWANCE

Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. 09/829,845, filed on April 10, 2001. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Matos (US 2003/0233129), Upton et al (US 6,141,037), Shipp (US 5,408,268), Wilk (US 5,368,015), Uchikubo (US 6,602,185), and Terada (US 4,310,228).

The following is an examiner's statement of reasons for allowance: allowance of claims 29-30 is indicated because the prior art of record does not show or fairly suggest an endoscope apparatus having in its endoscope both the wireless transmitter provided in the image information signal transmission path in the endoscope for transmitting the image information signal and a reception circuit also provided in the endoscope for receiving a designation signal from a wireless receiver that received the image information signal transmitted from the transmitter(i.e., for receiving the image information signal as recited in claim 29). It is noted while the patent to Terada (US 4,310,228) discloses an endoscope apparatus having both a transmitter and a receiver, this receiver is not located in the endoscope unit or signal transmission path and is not functioned as a reception circuit so that an antenna in the wireless transmitter can be used for both transmitting and receiving purposes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tu Ba Hoang whose telephone number is (703) 308-3303. The examiner can normally be reached on Mon-Fri from 8:30AM to 5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
